Education

Parul University

B.tech Computer Science and Engineering

Sep. 2022 – June 2026

Vadodara, Gujarat

Projects

Customer Churn Analysis | *Excel, Git*

January 2026

- Analyzed telecom customer churn data using Excel by cleaning, sorting, and filtering data to identify churn patterns.
- Built Pivot Tables and visualizations (column charts, histograms, and heatmaps) to analyze churn by tenure, monthly charges, and gender.
- Derived actionable customer retention insights and published the project on GitHub using Git for version control.

Data Analysis – Cognifyz Technologies | *Python, Exploratory Data Analysis (EDA)*

January 2026

- Conducted structured analysis on restaurant data to examine geographic distribution, customer ratings, and brand presence across multiple locations.
- Emphasized insight generation through structured analysis and visual interpretation.

Sales Performance and Operations Analysis | *Power BI, Excel*

October 2025

- Conducted end-to-end sales and operations analysis (2023–2025) examining sales metrics, customer behavior, product patterns, delivery performance, and return rates to identify revenue drivers, profitability factors, discount impact, and operational gaps.
- Designed interactive dashboards to visualize sales performance, profitability metrics, customer segmentation, delivery efficiency, and returns trends for business reporting.

COD-SOFT | *Python*

January 2024

- Developed and refined Python mini-projects applying programming fundamentals such as arithmetic operations, randomization, game logic, loops, conditional statements, and modular coding practices.

Technical Skills

Programming and Scripting Languages: Python, SQL.

Data Visualization and Machine Learning: Power BI, Microsoft Excel, NumPy, Pandas, Seaborn, Scikit-learn.

Web-Development: HTML, CSS.

Additional: Blender, GIT.

Certificates and Achievements

Deloitte

Remote

Data Analysis

December 2025

- Completed Deloitte's Data Analytics experience with practical exposure to data analysis and forensic technology through business-oriented tasks. Enhanced analytical reasoning and insight development skills.

Accenture

Remote

Data Analytics and Visualization

February 2025

- Completed Accenture's Data Analytics and Visualization program, focusing on data preparation, modeling, and visualization. Strengthened capabilities in data storytelling and client-focused insight presentation.

Hackathons and Competitions

Parul Hack Verse

Vadodara, India

Participant – National Level Hackathon, organized by Parul University

January 2025

- * Participation: Participated in Parul Hack Verse Hackathon 2025, where the team implemented a Face Recognition-based Attendance Management System.
- * Contribution: Handled machine learning components, utilizing OpenCV, NumPy, and face recognition models to enable accurate face detection and identification.

AI and ML Quiz

Remote

Participant – National Level Quiz Competition, organized by MentorAide

October 2023

- * Engaged in a national-level AI & ML quiz competition organized by MentorAide via Unstop, applying theoretical knowledge of artificial intelligence and machine learning fundamentals.
